The teacher responsible for preparing the examination is not allowed to consult the question paper before the examination. Teachers should, as part of the preparation of the examination requirements, carry out any tests indicated on pages 2 and 3 in order to satisfy themselves that the supplied materials are satisfactory.

The standard Report Form to be included with the scripts is given on pages 7 and 8. Please detach and enclose it with the scripts. If scripts are despatched in more than one envelope, it is essential that a copy of the Supervisor’s Results and of the Report Form are sent inside each envelope.

More material may be issued if required, without penalty, but this should not be necessary. Safety spectacles may be provided if considered necessary.

Supervisors are advised to remind candidates that all substances in the examination should be treated with caution. Please also see under ‘General Apparatus’ on the use of pipette fillers and safety goggles.

In accordance with COSHH (Control of Substances Hazardous to Health) Regulations, operative in the UK, a hazard appraisal of the examination has been carried out.

Attention is drawn, in particular, to certain materials used in the examination. The following codes are used where relevant.

- **C** = corrosive substance
- **F** = highly flammable substance
- **H** = harmful or irritating substance
- **O** = oxidising substance
- **N** = harmful to the environment
- **T** = toxic substance

Hazard data sheets should be available from your suppliers.

If you have any queries regarding these Instructions, please contact CIE
by e-mail: info@cie.org.uk,
by phone: +44 1223 553554,
by fax: +44 1223 553558,
stating the Centre number, the nature of the query and the syllabus number quoted above.
For Question 1

Each candidate will require

(a) one 25 cm³ or 50 cm³ measuring cylinder
(b) one 50 cm³ burette with stand and clamp
(c) one 250 cm³ conical flask
(d) 100 cm³ of aqueous hydrochloric acid of concentration 0.1 mol / dm³, labelled solution A
(e) 100 cm³ of aqueous hydrochloric acid of concentration 0.4 mol / dm³, labelled solution B
(f) 100 cm³ of aqueous sodium hydroxide of concentration 0.1 mol / dm³, labelled solution C
(g) methyl orange indicator
(h) access to water and distilled water
(i) a white tile
(j) one funnel for filling the burette
(k) teat pipette
For Question 2

Each candidate will require

[H] (a) a stoppered test-tube containing about 1g of chromium(III) potassium sulfate, KCr(SO₄)₂.12H₂O, labelled solid D
(b) one boiling tube and stopper
(c) access to water and distilled water
(d) splints
(e) rack of test-tubes including two hard glass test-tubes
(f) aqueous barium nitrate of suitable concentration to give a positive sulfate test

[N][H] (g) aqueous silver nitrate of suitable concentration to give a positive halide test

[C] (h) aqueous nitric acid of concentration 1 mol / dm³
(i) aqueous sodium hydroxide of concentration 1 mol / dm³
(j) hydrogen peroxide solution of concentration 10 volume
(k) aqueous ammonia of concentration 1 mol / dm³
(l) a 10 cm³ measuring cylinder
(m) a Bunsen burner and matches
(n) teat pipettes
(o) test-tube holder

Labels do not need to include concentrations.

THE SUPERVISOR’S REPORT IS ON PAGES 7 AND 8
THE SUPERVISOR’S REPORT IS ON PAGES 7 AND 8
REPORT ON PRACTICAL CHEMISTRY

NOVEMBER 2014

1 (a) Supervisor’s Results

It is recommended that the Supervisor should be a chemistry teacher.

The Supervisor is asked to carry out the experiments in Questions 1 and 2 and to record the results on a spare copy of the question paper clearly labelled ‘Supervisor’s Results’. Failure to enclose these results and this report form may lead to candidates being unavoidably penalised.

(b) The candidate numbers of candidates in each session were:

<table>
<thead>
<tr>
<th>First session</th>
<th>Second session</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
2 The Supervisor is invited to report details of any difficulties experienced by candidates giving names and candidate numbers. The report should include reference to:

(a) any general difficulties encountered in making preparations for the examination;

(b) difficulties due to faulty apparatus or materials;

(c) accidents to apparatus or materials.

Other cases of individual hardship, e.g. illness, temporary disability, should be reported direct to UCLES on the normal Application for Special Consideration form.
