READ THESE INSTRUCTIONS FIRST

The teacher responsible for preparing the examination is **not** allowed to consult the question paper before the examination. Teachers should, as part of the preparation of the examination requirements, carry out any tests indicated on pages 2 and 3 in order to satisfy themselves that the supplied materials are satisfactory.

The standard Report Form to be included with the scripts is given on pages 7 and 8. Please detach and enclose it with the scripts. If scripts are despatched in more than one envelope, it is essential that a copy of the Supervisor’s Results and of the Report Form are sent inside **each** envelope.

More material may be issued if required, without penalty, but this should not be necessary. Safety spectacles may be provided if considered necessary.

Supervisors are advised to remind candidates that all substances in the examination should be treated with caution. Please also see under ‘General Apparatus’ on the use of pipette fillers and safety goggles.

In accordance with COSHH (Control of Substances Hazardous to Health) Regulations, operative in the UK, a hazard appraisal of the examination has been carried out.

Attention is drawn, in particular, to certain materials used in the examination. The following codes are used where relevant.

- **C** = corrosive substance
- **F** = highly flammable substance
- **H** = harmful or irritating substance
- **O** = oxidising substance
- **N** = harmful to the environment
- **T** = toxic substance

Hazard data sheets should be available from your suppliers.

If you have any queries regarding these Instructions, please contact CIE
by e-mail: info@cie.org.uk,
by phone: +44 1223 553554,
by fax: +44 1223 553558,
stating the Centre number, the nature of the query and the syllabus number quoted above.
For Question 1

Each candidate will require

[F] (a) five strips of magnesium ribbon, each 4 cm long, labelled magnesium ribbon

(b) a 100 cm³ beaker

[H] (c) 50 cm³ of sulfuric acid of concentration 1.0 mol/dm³, labelled A

(d) 50 cm³ of sulfuric acid of concentration 0.8 mol/dm³, labelled B

(e) 50 cm³ of sulfuric acid of concentration 0.6 mol/dm³, labelled C

(f) 50 cm³ of sulfuric acid of concentration 0.5 mol/dm³, labelled D

(g) a stirring rod

(h) access to water and distilled water

(i) a 50 cm³ measuring cylinder

(j) a stop clock or timer. Candidates may use their own watches

(k) teat pipette

(l) a test-tube

(m) splint

(n) Bunsen burner and matches

(o) a stirring thermometer, 0-110 °C

(p) a 10 cm³ measuring cylinder
For Question 2

Each candidate will require

[H] (a) a stoppered test-tube containing about 8 cm³ of aqueous iron(II) chloride, FeCl₂·4H₂O, of concentration 0.2 mol/dm³ labelled solution X. This solution should be prepared just before the examination.

[N][H] (b) a stoppered test-tube containing about 6 cm³ of aqueous silver nitrate, AgNO₃, of concentration 0.1 mol/dm³, labelled solution Y

(c) rack of eight test-tubes with a stopper to fit tubes

(d) boiling tube with a stopper to fit

(e) red litmus papers

[H] (f) aqueous sulfuric acid of concentration 1.0 mol/dm³

[C] (g) aqueous sodium hydroxide of concentration 1.0 mol/dm³

(h) aqueous ammonia of concentration 1.0 mol/dm³

[N][H] (i) aqueous silver nitrate of suitable concentration to give a positive halide test

[C] (j) aqueous nitric acid of concentration 1.0 mol/dm³

(k) aqueous hydrochloric acid of concentration 1.0 mol/dm³

(l) aqueous potassium manganate(VII) of concentration 0.05 mol/dm³

(m) small piece (approximately 1 cm square) of aluminium foil

(n) about 2 cm³ of aqueous potassium iodide of concentration 0.2 mol/dm³

(o) spatula

(p) a 10 cm³ measuring cylinder

(q) a Bunsen burner and matches

(r) teat pipettes

(s) distilled water

(t) test-tube holder

Labels do not need to include concentrations.
THE SUPERVISOR’S REPORT IS ON PAGES 7 AND 8
THE SUPERVISOR’S REPORT IS ON PAGES 7 AND 8
THE SUPERVISOR’S REPORT IS ON PAGES 7 AND 8
1 (a) Supervisor’s Results

It is recommended that the Supervisor should be a chemistry teacher.

The Supervisor is asked to carry out the experiments in Questions 1 and 2 and to record the results on a spare copy of the question paper clearly labelled ‘Supervisor’s Results’. Failure to enclose these results and this report form may lead to candidates being unavoidably penalised.

(b) The candidate numbers of candidates in each session were:

First session | Second session
2 The Supervisor is invited to report details of any difficulties experienced by candidates giving names and candidate numbers. The report should include reference to:

(a) any general difficulties encountered in making preparations for the examination;

(b) difficulties due to faulty apparatus or materials;

(c) accidents to apparatus or materials.

Other cases of individual hardship, e.g. illness, temporary disability, should be reported direct to UCLES on the normal Application for Special Consideration form.
