Camper Companions (CC)

Camper Companions (CC) is a large public limited company set up 20 years ago in country X. It manufactures a wide range of camping equipment. Most of its customers own a tent or caravan.

Originally the company had one factory but now it has expanded to three factories. The directors want the company to continue to expand. Recently the directors of CC have considered merging with a competitor in country Z which manufactures a similar range of camping equipment.

Each of CC’s three factories employs 100 skilled workers. Most of these workers are part-time and they are paid lower wage rates than workers in other similar businesses. The factories use many machines in the production of CC’s products. The directors have not allowed workers to be members of a trade union but they are thinking of changing this decision.

CC only sells its camping equipment in country X but the directors plan to start manufacturing and selling the equipment in several countries including country Z. Government grants are available for building new factories in country Z.

Appendix 1

We beat our competitors on price on all our camping range.
Products sold through all good camping shops.
Appendix 2

Break-even chart of CC’s bestselling product – a camping cooker

Price = $40 per cooker
Variable cost = $20 per cooker

Appendix 3

To: Finance Director
From: Managing Director
Date: 10 October 2015
Re: Continued expansion of CC

We have a large number of loyal customers who buy our camping equipment in country X. However, we need to maintain our competitiveness and start to sell in other countries.

As a public limited company we have to maintain profitability. If CC’s share price falls we could be at risk of a takeover.
