Paper 2 The environment of Pakistan

**May/June 2019**

MARK SCHEME

Maximum Mark: 75

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

---

This document consists of **19** printed pages.

**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	Answer	Marks
1(a)(i)	 <p>3 @ 1 mark</p>	3
1(a)(ii)	<p>Y = Multan Z = Hyderabad</p> <p>2 @ 1 mark</p>	2
1(b)(i)	<ul style="list-style-type: none"> <li>• Flat / gentle slope / gentle valley side / doab;</li> <li>• Wide;</li> <li>• Boggy / marshy / water meadows / waterlogged;</li> <li>• Fertile / rich soil or minerals / alluvial terraces / alluvium / silt / gravel;</li> <li>• Levees;</li> <li>• Oxbow lakes / meanders / braiding.</li> </ul> <p>3 @ 1 mark</p>	3
1(b)(ii)	<ul style="list-style-type: none"> <li>• Farming / farmer's fields / growing crops / agriculture / cultivation;</li> <li>• (Cattle) grazing / rearing buffalo;</li> <li>• Fish farms / fish breeding / aquaculture;</li> <li>• Industry;</li> <li>• Transport or examples, e.g. roads / railways;</li> <li>• Settlement / building / housing / homes;</li> <li>• Irrigation / canals / drainage ditches.</li> </ul> <p>2 @ 1 mark</p>	2
1(c)(i)	<p>Monsoon <u>winds</u> blow towards the heart of the <u>continent</u> in <u>summer</u>. They blow towards the sea in <u>winter</u>.</p> <p>3 or 4 @ 2 marks 1 or 2 @ 1 mark</p>	2

Question	Answer	Marks
1(c)(ii)	<ul style="list-style-type: none"> <li>Coming from sea / Arabian Sea / Bay of Bengal;</li> <li>Sun heats up in (tropical) continents (land) faster or more quickly than the surrounding oceans (water);</li> <li>Warm air rises;</li> <li>Low pressure;</li> <li>Attracts cool, moist air from the sea;</li> <li>Rain bearing winds push further inland causing (heavy) rain / brings (heavy) rain.</li> </ul> <p>3 @ 1 mark</p>	3
1(c)(iii)	<ul style="list-style-type: none"> <li>Floods (any idea from below for development);</li> <li>Heavy rain; causes poor visibility and accidents (dev);</li> <li>Roads become rivers; cannot travel to work or school / towns and cities cut off (dev);</li> <li>Flights cancelled; negative impact on trade / tourism / business (dev);</li> <li>Crops destroyed; which causes food shortages / can lead to famine (dev);</li> <li>Water level in reservoirs or dams rises; leading to more water for irrigation / domestic / industrial use / no water shortages / HEP (dev);</li> <li>Businesses / markets are closed; leading to loss of income / produce / jobs disrupted (dev);</li> <li>Homes washed away / flooded / buildings destroyed; loss of possessions / people are homeless (dev);</li> <li>People are injured / killed; pressure on healthcare services / impact on mental health / impacts on business and economy (dev);</li> <li>Stagnant water; causes diseases (dev);</li> <li>Waterlogging: impacts on the economy as Pakistan is an agriculturally based country (dev);</li> <li>Brings rainfall to desert areas; desert blooms (dev);</li> <li>Replenishes groundwater; reduces water shortages (dev);</li> </ul> <p>Etc.</p> <p><b>Note:</b> One mark for identification of appropriate idea and a further mark for development (in parentheses).</p> <p><b>Note:</b> Max. 2 marks if no development.</p> <p>2 @ 2 marks</p>	4

Question	Answer	Marks
1(d)	<p><b>Levels marking</b></p> <p>No valid response 0</p> <p><b>Level 1</b> 1–2 Simple point referring to any view (1) Simple points referring to any view (2)</p> <p><b>Level 2</b> 3–4 Developed point referring to one view only (3) Developed points referring to both views (4)</p> <p><b>Level 3</b> 5–6 Developed points referring to both views with evaluation or relevant example (5) Developed points referring to both views with evaluation and relevant example (6)</p> <p><b>Content Guide</b> Answers are likely to refer to:</p> <p><u>Building more flood management schemes</u></p> <ul style="list-style-type: none"> <li>• So many people are affected;</li> <li>• Many people killed / injured;</li> <li>• Homes / farms / businesses destroyed;</li> <li>• Cost of clear up and losses on economy;</li> <li>• Floods hinder development as constantly having to rebuild / replace infrastructure;</li> <li>• Loss of days at school affects literacy rates / skills base;</li> <li>• Loss of days at work has an impact on revenue and tax collected;</li> <li>• Tax changes to cover cost of damage;</li> </ul> <p>Etc.</p> <p><u>Allowing rivers to flood naturally</u></p> <ul style="list-style-type: none"> <li>• Rivers provide nutrients to soil, so good for farming;</li> <li>• Should not build on flood plain;</li> <li>• Cost of management / flood protection is high;</li> <li>• Flood management needs to be maintained and updated, incurring ongoing costs;</li> <li>• Money is better spent on developing infrastructure, e.g. services, transport and industry;</li> <li>• Flood plains can be used for fish farming;</li> <li>• Flood plains can be used to channel water for irrigation;</li> </ul> <p>Etc.</p>	6

Question	Answer	Marks
2(a)(i)	<ul style="list-style-type: none"> <li>• Jiwani;</li> <li>• Gwadar;</li> <li>• Pasni;</li> <li>• Ormara;</li> <li>• Sonmiani;</li> <li>• Karachi / Keamari.</li> </ul> <p>2 @ 1 mark</p>	<b>2</b>
2(a)(ii)	<ul style="list-style-type: none"> <li>• Fish waste for fertiliser;</li> <li>• Money / income / export / selling;</li> <li>• Fish waste for poultry feed / livestock fodder;</li> <li>• Oil / oil extracted (to provide a source of nutrition – vitamins A &amp; D) / medicines;</li> <li>• Food supply / white meat / consumption / eating / healthy food.</li> </ul> <p>2 @ 1 mark</p>	<b>2</b>
2(a)(iii)	<p>Fish that is caught and sold for profit is known as <u>commercial</u> fishing. Many families depend on this type of fishing as their sole source of <u>income</u>. Fish that is caught by the family for their own consumption is known as <u>subsistence</u> fishing. Many people who live near the coast rely on fish as the main component of their <u>diet</u>.</p> <p>3 or 4 @ 2 marks 1 or 2 @ 1 mark</p>	<b>2</b>
2(a)(iv)	<ul style="list-style-type: none"> <li>• Traditional sailboats / wooden sailboats / small sailboats;</li> <li>• Traditional small (rope / hand crafted) fishing nets used cannot go deep / surface fishing only catch small amount of fish;</li> <li>• Fishing rods / lines (with hooks) / fishing poles;</li> <li>• Trawlers / gill netters / mechanised boats / boats with engines;</li> <li>• Modern boats can go further out up to 50–60 kms from the coast;</li> <li>• Stay at sea for 5–15 days / one to three weeks;</li> <li>• Traditional sailboats do not go far from coast;</li> <li>• Radar system / sonar / radios / navigation equipment / fish finders;</li> <li>• Large (nylon / rope) nets which go deep into the sea and catch a large amount of fish / gill nets;</li> <li>• Dynamite / bombs / explosives.</li> </ul> <p>3 @ 1 mark</p>	<b>3</b>
2(b)(i)	<p>A fish farm is a (rectangular) artificial pool / pond made for breeding / growing fish.</p> <p>1 @ 1 mark</p>	<b>1</b>
2(b)(ii)	<ul style="list-style-type: none"> <li>• Rectangular / square / circular ponds;</li> <li>• Man-made / made by humans;</li> <li>• Concrete or cemented impervious base;</li> <li>• Side is edged with solidified mud / edged with concrete;</li> <li>• Trees planted around the fish farm.</li> </ul> <p>2 @ 1 mark</p>	<b>2</b>

Question	Answer	Marks
