Paper 3 Case Studies March 2019

MARK SCHEME
Maximum Mark: 100

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the March 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of 19 printed pages.

[Turn over

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always whole marks (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit
 is given for valid answers which go beyond the scope of the syllabus and mark scheme,
 referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

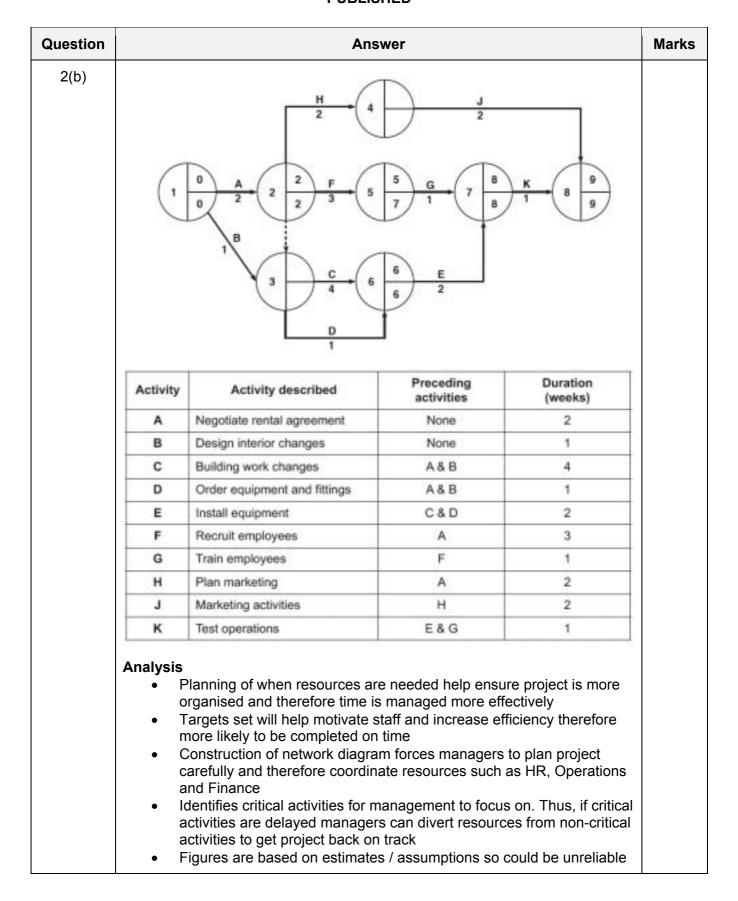

Question			Answer		Marks		
1	Analyse the benefits to PY of maintaining a centralised organisational structure.						
	Level	Knowledge 3 marks	Application 2 marks	Analysis 5 marks			
	2	3 marks Good knowledge of centralisation and benefits)	2 marks Points applied to PY	4–5 marks Good use of theory and/or reasoned argument to explain benefits			
	1	1–2 marks Knowledge of centralisation and / or benefits	1 mark Point applied to PY	1–3 marks Some use of theory and/or reasoned argument to explain benefits			
	Examiner note: Do not reward comments on disadvantages Knowledge						
	 Delegation to managers is limited Benefits of centralisation Consistent approach across organisation and its operations. National marketing can ensure that a consistent brand image and message is 						
	 communicated to customers Economies of scale – marketing Builds brand image Customers can be confident of what they will get in each outlet; market research confirms that this is important Quick decision making. Avoids poor decisions being made at a local level 						
	Applicat •	tion Yoon has focused or customers Consistent café style research highlights t product quality Quick decision makin	n developing a cohe e environment in al hat customers like ng can enable PY	erent brand message to I retail outlets – market the consistent service and to take advantage of			
	•	opportunities such a Yoon is experienced National advertising Linking benefit of ce Central purchasing o	and has key influence has contributed to ntralisation to comp	boosting PYs market share			

Question	Answer	Marks
1	 Analysis Economies of scale in marketing help keep average costs lower and thus raise profit Quick decision making has facilitated the initial rapid expansion of the brand Central buying generates EOS and reduces average costs 	

Question	Answer	Marks
2(a)(i)	Refer to the network diagram in Fig. 1, below and Table 2 in the Insert.	4
	Complete the network diagram at nodes 3 and 4.	
	Node 3: EST = 2 LFT = 2	
	Node 4: EST = 4 LFT = 7	
2(a)(ii)	State the activities on the critical path.	1
	ACEK	
2(a)(iii)	State the minimum time to complete the opening of the new café.	1
	9 (weeks)	
2(a)(iv)	Calculate the free float of Activity F.	2
	Free float = EST of next activity – duration this activity – EST of this activity (1)	
	5 – 3 – 2 (1)	
	Free float F = 0 (weeks) (2)	

Question			Aı	nswer		Marks	
2(b)	Refer to your answers to <u>2(a)</u> and any other information. Discuss whether PY's directors should be confident that the café in city X will be open in time for the summer season.						
	Level	Knowledge 2 marks	Application 2 marks	Analysis 4 marks	Evaluation 4 marks		
	2	2 marks Two relevant points	2 marks Factors well applied to PY	3–4 marks Good use of theory and/or reasoned argument to explain usefulness of network analysis	3–4 marks Good judgement shown e.g. well supported conclusion		
	1	1 mark Relevant point	1 mark Some application of factors to PY	1–2 marks Some use of theory and/or reasoned argument to explain usefulness of network analysis	1–2 marks Some judgement shown e.g. one factor very important		
	 Examiner Note: If only refer to 2(a) or other information limit to L1 AN & EVAL Knowledge Definition of network analysis: this is part of project management to ensure that resources are used efficiently. Also known as critical path analysis it identifies all tasks in a project, puts them in the correct sequence and allows for the identification of the critical path. Benefits of network analysis Planning of when resources are needed and their use can save time Sets target to work towards Construction of network diagram forces managers to plan project carefully Identifies critical activities for management to focus on 						
	Applica	Ition Identifies whe demand 9 weeks minir 1 week float Reference to equipment mu 75 cafes so ha	ther new outlet num time accor specific critical ust be delivered ave done this m	tes / assumptions so co can be opened in time to ding to the CPA activities / aspects of the by week 6 nultiple times before kternal factors such as co	for peak seasonal e network e.g.		

© UCLES 2019 Page 5 of 19

Question	Answer	Marks
2(b)	 Network presented is relatively simplistic – more detail needed Doesn't guarantee that project will be completed on time PY has experience of opening many outlets so should be relatively accurate Needs to be managed effectively No control over external influences e.g. suppliers Not much margin for error as only one week float 	

Question			An	swer		Marks		
3		try S. Justify y		se the three cafés in the interest in the inte		16		
	Level	Knowledge 2 marks	Application 2 marks	Analysis 6 marks	Evaluation 6 marks			
	2	2 marks Good knowledge shown	2 marks Good application to PY	4–6 marks Good use of theory and/or reasoned argument to explain ads/disads of closing the outlets	4–6 marks Good judgement shown on closure decision			
	1	1 mark Some knowledge shown	1 mark Some application to PY	1–3 marks Some use of theory and/or reasoned argument to explain ads/disads of closing the outlets	1–3 marks Some judgement shown on closure decision			
	 Examiner Note: If only refer to Table 1 or other information limit to L1 AN & EVAL Knowledge Understanding of fixed costs – costs that don't change with output Understanding of contribution concept. The contribution represents an increase in PY's overall profit Understanding of full costing 							
	Applica • • • •	Calculation of Full costing give Forecast profit Reference to se Yoon is worrie	ves a loss of \$0 \$0.4m specific fixed co	est e.g. lease of premise formance of the 3 cafe				
	Reason	NE of country future Most employee	es likely to be r	sis soor so sales may not in new so costs of redunda mployment legislation o	ancy may be low			

© UCLES 2019 Page 8 of 19

Question	Answer	Marks
3	 Reasons against closure Only operating one year. Is that sufficient time to make judgement? A positive contribution is being made to paying fixed costs. These costs will continue to be incurred even if the outlets are closed 25 employees depend on the outlets for income – this may be important in light of the criticisms of PY made in the documentary Signed lease contract until 2021 Impact on other employee morale if employees made redundant Damage to brand if closures announced 	
	 Analysis Loss of positive contribution may mean that in the short term PY's overall profits will be reduced as fixed costs continue to be paid such as the leasing cost Closure of outlets will negatively impact worker morale elsewhere in the organisation leading to loss of effectiveness Closure of outlets will signal to other workers need to work harder to retain jobs Use of zero hour contracts could mean that redundancy costs are low if closed Impact on brand image could lead to loss of sales Alternatives to closure include cutting prices to boost demand as NE is relatively poor Cutting costs by using local suppliers? 	
	 Can PY break the terms of the contract without significant penalty? Are sales likely to pick up in the future? What is the overall financial position of PY – can they afford to turn the three outlets around Supported identification of most important factor in the decision Only operating one year. Is that sufficient time to make judgement? Overall argument for or against closure 	

Question	Answer	Marks
4(a)(i)	Refer to the table in Appendix 1. Calculate:	1
	seasonal variation in 2018 Quarter 1	
	-\$1.56m (1) Allow -1.56 21.5 – 23.06 No marks for \$1.56m	

Question	Answe	r		Marks		
4(a)(ii)	average seasonal variation in Quarter 2.			2		
	Sum of seasonal variations in Q2 Number of seasonal variations (1) [if no	o calculation]				
	-0.56 + -1.41 + -1.35 + - 1.75 = -5.07					
	$\frac{-5.07}{4}$ (1)					
	Average seasonal variation Q2 = -\$1.27	m (2) Allow –	1.27			
	Or -\$1.26	75m				
4(b)	Refer to Appendix 1 and Appendix 2. Calculate PY's forecast sales for Quarter 3 in 2019.					
	Predicted trend from inspection of graph: Add average seasonal variation Q3 =	\$24.2m \$5.42m	(1) (1)			
	Forecast =	\$29.62m	(3)			
	29.62 (2)					
	Up to 2 marks can be awarded for: • Logical attempt to predict trend us the average of the Quarter 3s) • Correct use of seasonal variation	ing the table	(e.g. by considering (1) (1)

EVAL Knowledg D	Note: If only refe		argument	shown		
Application Application Preserved Analysis Identify Analysis Kanalysis Kanalysis	Examiner Note: If only refer to 4(b)) or other information limit to L1 AN & EVAL Knowledge Definition: predicting future sales and sales trends Although not in the syllabus candidates may refer to methods such as Delphi method; sales-force composite; jury of experts Sales forecasting using Time Series Analysis takes account of seasonal variations and gives a realistic prediction. Forecasting enables planning How forecasts contribute to market planning Application PY faces clear seasonal variation and consistent past trends so it is reasonable to assume that the future will be similar, making forecasting valuable for planning. Case indicates possible changes to the market – market increasingly saturated; growth of competitor and the negative publicity Analysis Identification of seasonal variation may inform PY decisions regarding marketing mix during different times of year. For example may encourage changes to pricing tactics in off season to boost sales.					

© UCLES 2019 Page 11 of 19

Question	Answer	Marks
4(c)	 • More reliable than simple forecasting or just projecting a trend • Relies on future events behaving as in past patterns so may not be reliable e.g. negative publicity • Other evidence needs to be taken into account e.g. prediction of competitors' behaviour, likely future government actions, and/or economic changes • May be advisable to introduce an element of probability to the forecasts – what if analysis. 	

Question			Ar	nswer		Marks	
5	Assess the significance of corporate social responsibility (CSR) to PY's future profitability.						
	Level	Knowledge 2 marks	Application 2 marks	Analysis 6 marks	Evaluation 6 marks		
	2	2 marks Good knowledge shown	2 marks Good application to PY	4–6 marks Good use of theory and/or reasoned argument	4–6 marks Good judgement shown		
	1	1 mark Some knowledge shown	1 mark Some application to PY	1–3 marks Some use of theory and/or reasoned argument	1–3 marks Some judgement shown		
	 interests of society by taking responsibility for the impact of their decisions and activities on customers, employees, communities and the environment Examples of what CSR involves Benefits of CSR in terms of brand image and USP Drawbacks of CSR in terms of costs and damage if PY doesn't adhere to its CSR goals 						
	Applica •	PY faces a number of the property of the prope	mber of CSR is publicity over some formula contract of employees closure of three e criticism and possible rtising to count		yoghurt counteract the		

© UCLES 2019 Page 13 of 19

Question	Answer	Marks
5	 Analysis PY may need to change tactics due to potential impact on revenues due to change in public image and branding Impact on market share Impact on profits Benefits of CSR in terms of promoting brand image and increasing sales as a result How CSR can give PY a USP and ability to take more control over pricing and therefore increase profits Cost of CSR – higher wage costs, ingredient costs. Increased costs will reduce profit margins Danger of claiming a socially responsible approach if it is not followed in reality. This could lead to backlash and loss of image and sales Analysis of how PY's response to the documentary will impact sales and profits. PY may need to increase spending on marketing to counteract negative effects of bad publicity 	
	 Evaluation Judgement on the balance between costs and benefits of CSR to PY Significance may depend on competitor behaviour. Can PY afford not to take CSR seriously? There is a need for PY to address the issues highlighted by the documentary and social media reports. At the very least PY must deal with issue of minimum wage. 	

Question	Answer	Marks
----------	--------	-------

Questions 6 and 7 use this marking grid:

Level	Knowledge 3 marks	Application 3 marks	Analysis 4 marks	Evaluation 10 marks
α				7–10 marks Good judgement shown throughout with well supported conclusion/ recommendation, focused on the business in the case
2	3 marks Good understandin g shown	3 marks Good application to the case	3–4 marks Good use of reasoned argument or use of theory to explain points made	4–6 marks Some judgement shown in the main body of the answer and an attempt to support conclusion/ recommendation, focused on the business in the case OR effective and well supported conclusion/ recommendation, focused on the business in the case
1	1–2 marks Some understandin g shown	1–2 marks Some application to the case	1–2 marks Limited use of reasoned argument or use of theory to support points made	1–3 marks Limited attempt to show judgement either within the answer OR a weakly supported conclusion/ recommendation with some focus on the business in the case
0		1	No credita	ble content

Question	Answer	Marks
6	Yoon has produced a strategic analysis of PY's potential entry into the North American market.	20
	Evaluate the usefulness of this strategic analysis to PY's Directors when they consider the plan to expand into North America.	
	 Explanation of strategic analysis and its techniques – SWOT, PEST, Boston Matrix, Porters 5 Forces, core competencies. Effective strategic analysis may result in clearer and more relevant business objective, better strategic decisions and less risk as PY will be better prepared for the future Place of strategic techniques in strategic management Need to understand the external environment in North America – requiring a detailed PEST analysis 	
	 Application Exploration of range of factors contained in Appendix 3 in particular: Implications of high gearing linked to need to raise \$20m finance 5% growth of the North American market link to PY objective of growth Saturated market in country S link to PY objective of growth Impact of a focus on international expansion on PY's ability to deal with the challenge of Blue Berry in country S Reference to Porter's Five Forces, Appendix 4. Need to overcome the brand preference of established business Significance of threat of substitutes for pricing tactics Economies of scale low indicates that PY can be price competitive Individual consumers so limited negotiating power Limited supplier power 	
	 Analysis The time, money and effort needed to conduct SA and impact on PY How SA will improve business planning and thus reduce risk e.g. PY will be able to work on marketing strategy to overcome brand preferences. May need to increase marketing budget to be successful Understanding the American market through appropriate PEST analysis will inform PY's decisions and improve effectiveness of marketing Limited supplier power therefore PY may be able to negotiate favourable terms SWOT/Pest analysis will mean that PY considers a range of internal and external factors thus reducing risk of expansion into North American market Helps to prioritise strategies, for example, to deal with weaknesses of PY Dynamic markets so analysis can quickly become outdated 	
	 Subjective nature of the analysis Simplistic listing approach of the techniques 	

Question	Answer	Marks
6	 Evaluation Clear conclusion as to the importance of strategic analysis and/or techniques including: Critical comments on the techniques e.g. Boston Matrix not relevant to this decision Importance of understanding where the business is now in order to generate ideas and/or support for overseas expansion Comments that strategic analysis on its own is not enough to fully support a decision. Need for strategic choice techniques. Weighing up importance of other stages in strategic management especially objectives and choice techniques in relation to strategic analysis Ranking the usefulness of the techniques in relation to overseas expansion An assessment of the relative importance of business planning in relation to strategic analysis An assessment of the importance of timing and a timescale in carrying out analysis. 	

Question	Answer	Marks
7	Evaluate the importance of business planning to the future success of PY.	20
	 Knowledge Definition: A business plan is a detailed report on a company's future long-term aims/objectives and the strategies it will follow to achieve them. Answers could include: A business plan: Gives direction to the business. The plan provides PY directors with a clear focus for what the company should be trying to achieve in the medium term. Helps motivate staff. It provides a sense of purpose. Enables planning at different levels of the business and ensures all staff are working towards the same goals. Acts as a means for control and review. Actual outcomes can be compared with the objectives set and the performance of PY can be assessed. Helps ensure that resources are used effectively and that all departments are working together. The planning process itself is useful. It encourages directors and managers to consider the current situation of the firm and to set objectives accordingly. How dynamic markets may undermine plans Potential link between profitability and having clear business plans. Planning of finance (sources and time-scales) will impact on expenses which can affect profitability 	
	 Application Need to secure finance for expansion to North America. Planning essential to convincing financiers to support expansion. Reference to potential problems resulting from TV documentary. Contingency plan could have reduced likely impact Reference to PY's SWOT analysis and Porter's Five Forces as part of planning process Reference to decision regarding the three cafes in North East. 	

Question	Answer	Marks
7	 Analysis Benefits of direction given for employees and their motivation linking to efficiency and achievement of objectives SWOT analysis / Porter's Five Forces and links to effective decision making regarding expansion. Analysis will reduce risk to PY in its decision making and thus help to ensure profitability. Contingency plan could have enabled PY to deal effectively with TV documentary and thus protect profits and protect brand image Better planning may have avoided problems with the three cafes. Marketing support might have been identified as necessary to meet sales targets 	
	 Needs to be flexible and adaptable to meet new situations. Reliability of information – how much is spent on market research/data gathering and how relevant is it? Interpretation of information used in planning can be influenced by skills and training of leadership. Reference to decision regarding the three cafes in North East. Was planning effective? Was there sufficient market research? Planning is time-consuming and can be expensive As there is a dynamic business environment therefore there is a need to adjust plans accordingly Planning doesn't guarantee success. It may be of little significance unless it is acted upon Plans may be restrictive and discourage be responsive to changes in the market Depends on the level of detail For new markets such as North America business planning may be more important as PY limited knowledge of the market and cost of expansion is significant Monitoring and review essential to ensure costs are not increasing in this rapidly changing market
